

pink_time_heap::top

```
graph LR; A[pink_time_heap::top] --> B[pink_time_heap::empty]
```

A diagram showing a pointer relationship between two memory locations. On the left, a gray rectangular box contains the text 'pink_time_heap::top'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'pink_time_heap::empty'. Both boxes have a black border.

pink_time_heap::empty
